Objective

I am someone who is immensely passionate about creating digital artwork. I am constantly looking to diversify my skillset by working with SaaS Founders and exploring creative software options. I do this acute attention to detail and take great pride in creating an end product that drives maximum results for your business.

Experience

● Intern Graphic Designer | xLyncs | Software House | 2024

Developed and executed diverse design solutions for website and print media.

Utilize diverse design softwares to produce high quality visual assets and continuously bringing fresh and innovative design solutions to the team.

Worked closely with senior designer and project manager to ensure each visual met on time and within budget.

● Graphic Designer | Akbar Media | Digital Marketing Agency | 2025

Developed hands on collaboration and to work closely with marketers and strategist which gives a deeper context and helps me to understand the psychology behind effective design.

Working as a junior graphic designer has helped me to manage deadlines efficiently and sharpen my skills at a much quicker pace.

Maintain a fast-growth networking and get industry exposure that stay connected with top players in design, advertising, and digital media.

● Mid Level Graphic Designer | ZA technologies | 2026

Enhanced my understanding of user behavior and visual storytelling, enabling me to craft designs that not only look appealing but also communicate effectively.

Developed a detail-oriented design approach focused on consistency, clarity, and creating seamless visual experiences across digital platforms.

Strengthened my creative problem-solving mindset by balancing aesthetics with business goals
